Plaque only	£12 (optional, for boats qualifying for free entry)

*Please note there are a limited number of these spaces available and we reserve the right to ensure an even spread across charitable causes appropriate to the Festival.

Mooring Information

Mooring positions will be allocated at the discretion of the Waterspace Manager and will be confirmed approximately 2 weeks before the Festival. Allocations may be subject to change at any time, up to and during the festival, by the Waterspace Manager or Harbourmaster.

The mooring you are allocated should be available, at the latest, on the Friday before the festival. However, it is a huge logistics exercise as boats arrive throughout the week and we often cannot move overstaying moorers until our Harbourmaster Team and their tugs arrive. Please cooperate and help each other to get everyone onto their allocated moorings as soon as possible.

Bankside priority will be given to genuinely disabled, traders and Festival Volunteers who need frequent passage between their boat and the site. Please do not request a bankside mooring unless you really need it.

Points to remember when booking: Moorings are allocated on a first come first served basis, subject to the conditions previously stated. If you have any special requirements, wish to be moored in a particular section or next to friends then please give details in the Special Requests section of the booking form. We will do our best to accommodate your requirements, so please help both yourself and us by booking early. If you are planning to leave the Festival before Sunday lunchtime it would be appreciated if you would request an outside mooring.

The moorings are divided into 4 sections.

Batchworth Batchworth Bridge to the Iron Bridge.

Moorings are 4 boats abreast and are reserved for working boats and boats of historic interest *that were built before 1956*.

Ironbridge Iron Bridge to Frogmore Bridge.

Moorings are 3 boats abreast. Due to navigation, there will be no moorings for widebeam visitors' boats on this section. Very little phone signal or TV reception.

Frogmore Frogmore Bridge to the Aquadrome car park entrance

Moorings are 3 boats abreast and tend to be quieter and, some say, have a better view.

Stockers: Aquadrome car park entrance to Stockers Lock.

Handy for beer tent and stalls. Widebeam boats will be allocated moorings in this section.
