

Mooring Information

Points to Remember

We will do our best to accommodate your requirements, so please help both yourself and us by booking early; we allocate moorings on a first come first served basis. If you have special requirements, please list them on the online booking form in the Special Requests box.

Please note that last year about 40% of boaters requested a bankside mooring. Bankside priority is given to genuinely disabled, traders and Festival Volunteers who need frequent passage between their boat and the site. Please do not request bankside mooring unless you really need it.

Bookings are allocated at the Waterspace Manager's discretion and are subject to change at any time, up to and during the festival, by the Waterspace Manager or Harbourmaster.

The mooring you are allocated should be available, at latest, on the Friday before the festival. However, it is a huge logistics exercise as boats arrive throughout the week and we often cannot move overstaying moorers till our Harbourmaster Team and their tugs arrive. Please cooperate and help each other to get everyone on their allocated moorings as soon as possible.

The moorings are divided into 4 sections:

Batchworth: Batchworth Bridge to the Iron Bridge. Moorings are 4 boats abreast and are reserved for Working Boats and Boats of Historic Interest *that were built before 1956*.

Ironbridge: Iron Bridge to Frogmore Bridge. Moorings are 3 boats abreast. Very little phone signal or TV reception.

Frogmore: Frogmore Bridge to the Aquadrome car park entrance. Moorings are 3 boats abreast and tend to be quieter and, some say, a better view.

Stockers: Aquadrome car park entrance to Stockers Lock. Handy for beer tent and stalls.

We will send out email confirmation immediately we receive your booking. Once your booking is accepted, we will request payment. Your anticipated mooring positions will be confirmed four weeks before the Festival.

Best regards,

Phil Bassett

Waterspace Manager – Rickmansworth Festival
